- **One Million Arab Coders Initiative | Full-stack Developer Track**
April 2018 | [Udacity.com](#)
- **GCP Essentials | Basics Of Google Cloud**
September 2018 | [Qwiklabs.com](#)
- **Laravel Best Practices & Design Patterns**
December 2019 | [Udemy.com](#)

- **Web Applications For Everybody Specialization**
August 2020 | Coursera.org
- **Web Development Professional Nanodegree Program**
August 2020 | Udacity.com

SOME OPEN SOURCE PROJECTS

- **YouTube videos management app | Laravel PHP - Inertiajs (Vuejs) - Tailwind CSS - YouTube API**
It is a web application that enables you to show a list of videos of specific YouTube challenges from YouTube into your account in the web application
<https://github.com/AhmedHelalAhmed/youtube-videos-management-app>
- **Unlock medium chrome extension | JavaScript chrome API**
A simple way to open Medium
<https://github.com/AhmedHelalAhmed/unlock-medium-chrome-extension>
- **Get SQL statement | Laravel package**
To get SQL statement from eloquent
<https://github.com/AhmedHelalAhmed/get-SQL-statement-laravel>
- **Feeds app | Laravel and Vue.js**
Feed application that collects news from configured web applications
<https://github.com/AhmedHelalAhmed/feeds-app>
- **Bookmark organizer | Laravel**
Export your bookmarks in JSON then import them into the web app to merge and manage them
<https://github.com/AhmedHelalAhmed/bookmark-organizer>
- **Task organizer | Laravel PHP**
A simple way to organize tasks
<https://github.com/AhmedHelalAhmed/task-organizer>
- **Laravel Greeting package | Laravel PHP**
A simple way to debug complex workflow
<https://github.com/AhmedHelalAhmed/laravel-greeting>
-

- **Laravel Resource Routes Generator | Laravel PHP**
To automate writing resource routes in a simple way
<https://github.com/AhmedHelalAhmed/laravel-resource-routes-generator>

LANGUAGES

- Arabic: Native
- English: Very good
